

RUBBER WRAPPED BELTS

ESAFLEX, XDV2, PLURIBAND

ESAFLEX

Esaflex are ideally suited for serpentine drives where power needs to be transmitted equally from both sides of the belt. Double wrapped cotton neoprene cover is added for excellent resistance to abrasive wear, heat, ozone, sunlight, grease oil or dirt. Centrally located cord and special synthetic rubber compounds assure long belt life and a smooth drive.

XDV2

The XDV2 belts has been created for drives with small pulley diameters and high temperature peaks, combined with a high grade of moisture and humidity. It withstands the harshest environmental requirements, such as oil and grease contaminated drives of transmissions where grits may interfere between pulleys and belt.

Thanks to its characteristics, the XDV2 perfectly matches the requirements of clutching drives as the aramid cords protect the belt against shock loads while maintaining its length constant.

PLURIBAND

Banded version of V-belts eliminates belt whip and turnover on wedge-type drives. Patented bending process insures smooth operation. Oil and heat resistant, static dissipating.

Special constructions are available on request.
